## Chapter 2

# *The Journey of a dream-like wedding*

Let the romance continue with a fairy-tale wedding right on Con Dao Island - one of the very last unspoiled islands left in Vietnam.

Six Senses Con Dao offers a number of selections for bride and groom to celebrate their once-in-a-lifetime event. No matter if it is a beach style or greenery rustic theme, we have all the elements to make your wedding personalized.

## *Rustic Beach Style Theme*

Setting that inspires. Picture your wedding on the beach side that captures the essence of natural elegance and relaxed complexity. With the sapphire blue of the ocean and the dramatic view of the Lo Voi Mountain as your background, you and your guests will enjoy a relaxed resort-style atmosphere, elevated with the nature-friendly settings of Six Senses Con Dao.

Rustic beach style features an elegant setting in blue pastel tone with lots of greenery and flowers. Seashells decoration brings a nice beachy touch to the setting as a whole. This inspiration is shimmering yet elegant and romantic that perfectly suits for sea lovers.

The aisle entrance was decorated with classic black lanterns arranged at the foot of rustic wooden flowers baskets. A path of petals led to the wedding canopy on the sand draped with hessian fabric, and seashell knots adorned with blue pastel tidebacks. Everything is just perfectly set for your special day.

A part from a wedding ceremony setup, impress your guests by a beach style gala lunch right on the beach side. Nothing is more fascinating than enjoying your lunch with a breathtaking view, a warm sea breeze and the soothing sounds of wave crashing.

## Rustic Greenery Theme

In the mood for a rustic greenery wedding? So you should not miss this set up at Six Senses Con Dao.

Greenery is always great a decoration for weddings. They look energetic and go well with any decorations. Here we use a palette of colors of light brown, cream and of course lots of greeny touches. We want to bring out a classical but very romantic and effortlessly stylist wedding. That is why we strongly focus on little details - the hessian napkin ring with pearl decorated, the wooden candle sticks or rustic flower boxes, to make sure the small things does matter.

The wedding will not be completed without a stunning outdoor wedding dinner that twinkles with so much beauty. We recommend you to book our one and only Four Bedroom Ocean Front Villa to set you your wedding gala lunch or dinner right in its garden.

Centerpieces don't have to be complicated. Assorted white blooms in mismatched glass flower pots lying on a green background make just as much of a statement. The rest just let the wooden candlesticks and hessian long table runner do the finishing touches.

It's tempting to focus all of your attention on decking out the tables and anything at eye level. But when it comes to decorations, don't forget to look up! We prepare twinkling lights from the rafters to create an ambiance of a midsummer night's dream.

Decoration is only part of your wedding dream. There are a lot more to go. That is why these following packages are designed to reduce your stress and get everything in placed easily. Just enjoy your special day and let us take care of the rest.
