CON DAO

THE BEST OF CON DAO ISLANDS 2023

Your idyllic paradise awaits, on the tropical island of Con Dao!

Con Dao is the first island in Vietnam already being vaccinated – 90 percent of Six Senses Con Dao staff already had their first dose and all the islanders shall be fully vaccinated with their first dose by the end of June. The island is un-touched by the current issue, and Six Senses Con Dao will be the safest and best destination in all of Vietnam.

Whether an ideal holiday is romance, relaxation, adventure or eco-consciousness, the pristine hidden island gem, along with its only five-star resort Six Senses Con Dao, offers only the best of everything a traveler could dream of.

BEST FOR ECO-CONSCIOUS TRAVELERS[♡]

Con Dao's consistent efforts towards nature and sustainability have been well regarded.

SUSTAINABILITY TOUR

Sustainability has always been at the heart of Six Senses Con Dao. We are happy to share with you the different aspects of what we do daily, and some ideas you can take home.

- Earth Lab introduction & Green lifestyle
- Visit Mushroom Hut
- Let's get cracking and Marine Turtle Talk
- Visit Organic Farm & Enjoy hibiscus tea
- Composting workshop

TURTLE HATCHING RELEASE

We've restored our beach to make it an ideal place for egg-laying by endangered green sea turtles. This project, in cooperation with Con Dao National Park authorities, includes a safe and monitored incubation enclosure to protect eggs from threats such as poaching. Guests are encouraged to participate in our ethical hatchling releases and those lucky enough to be here when our eggs hatch have called the experience life-changing.

FARM-TO-TABLE DINING

In another effort toward self-sustainability, we have our own organic garden, Sense of Gardening to produce organic food and reduce environmental impacts due to resort's operation. This extensive organic garden produces many types of plants including fruit, vegetables and herbs with a mushroom hut. It is the main source of fresh ingredients in our restaurants and bar.

Guests can join together in a chef-accompanied tour, learning about the produce and selecting their pick of the crops and cooking together in the Garden kitchen.

CHICKEN VILLA

Visit our new residence called “The Chicken Villa” right in the organic garden and develop your green fingers, “Be a Farmer” for a day with the hosts, and get to feed the chickens and learn traditional harvesting methods.

These are just some of our new initiatives to reduce food waste and promote organic decomposition.

EARTH LAB

To learn about our sustainability efforts towards plastic free and support communities & ecosystems, visit Earth Lab.

There are different workshops to make soaps and other household items using just about anything imaginable.

Check your “ Sense of Fun” schedule to find out more.

ON THE SEA....

Set sail on the resorts own speedboat, into the early morning horizon and explore the majestic waters around Con Dao archipelago.

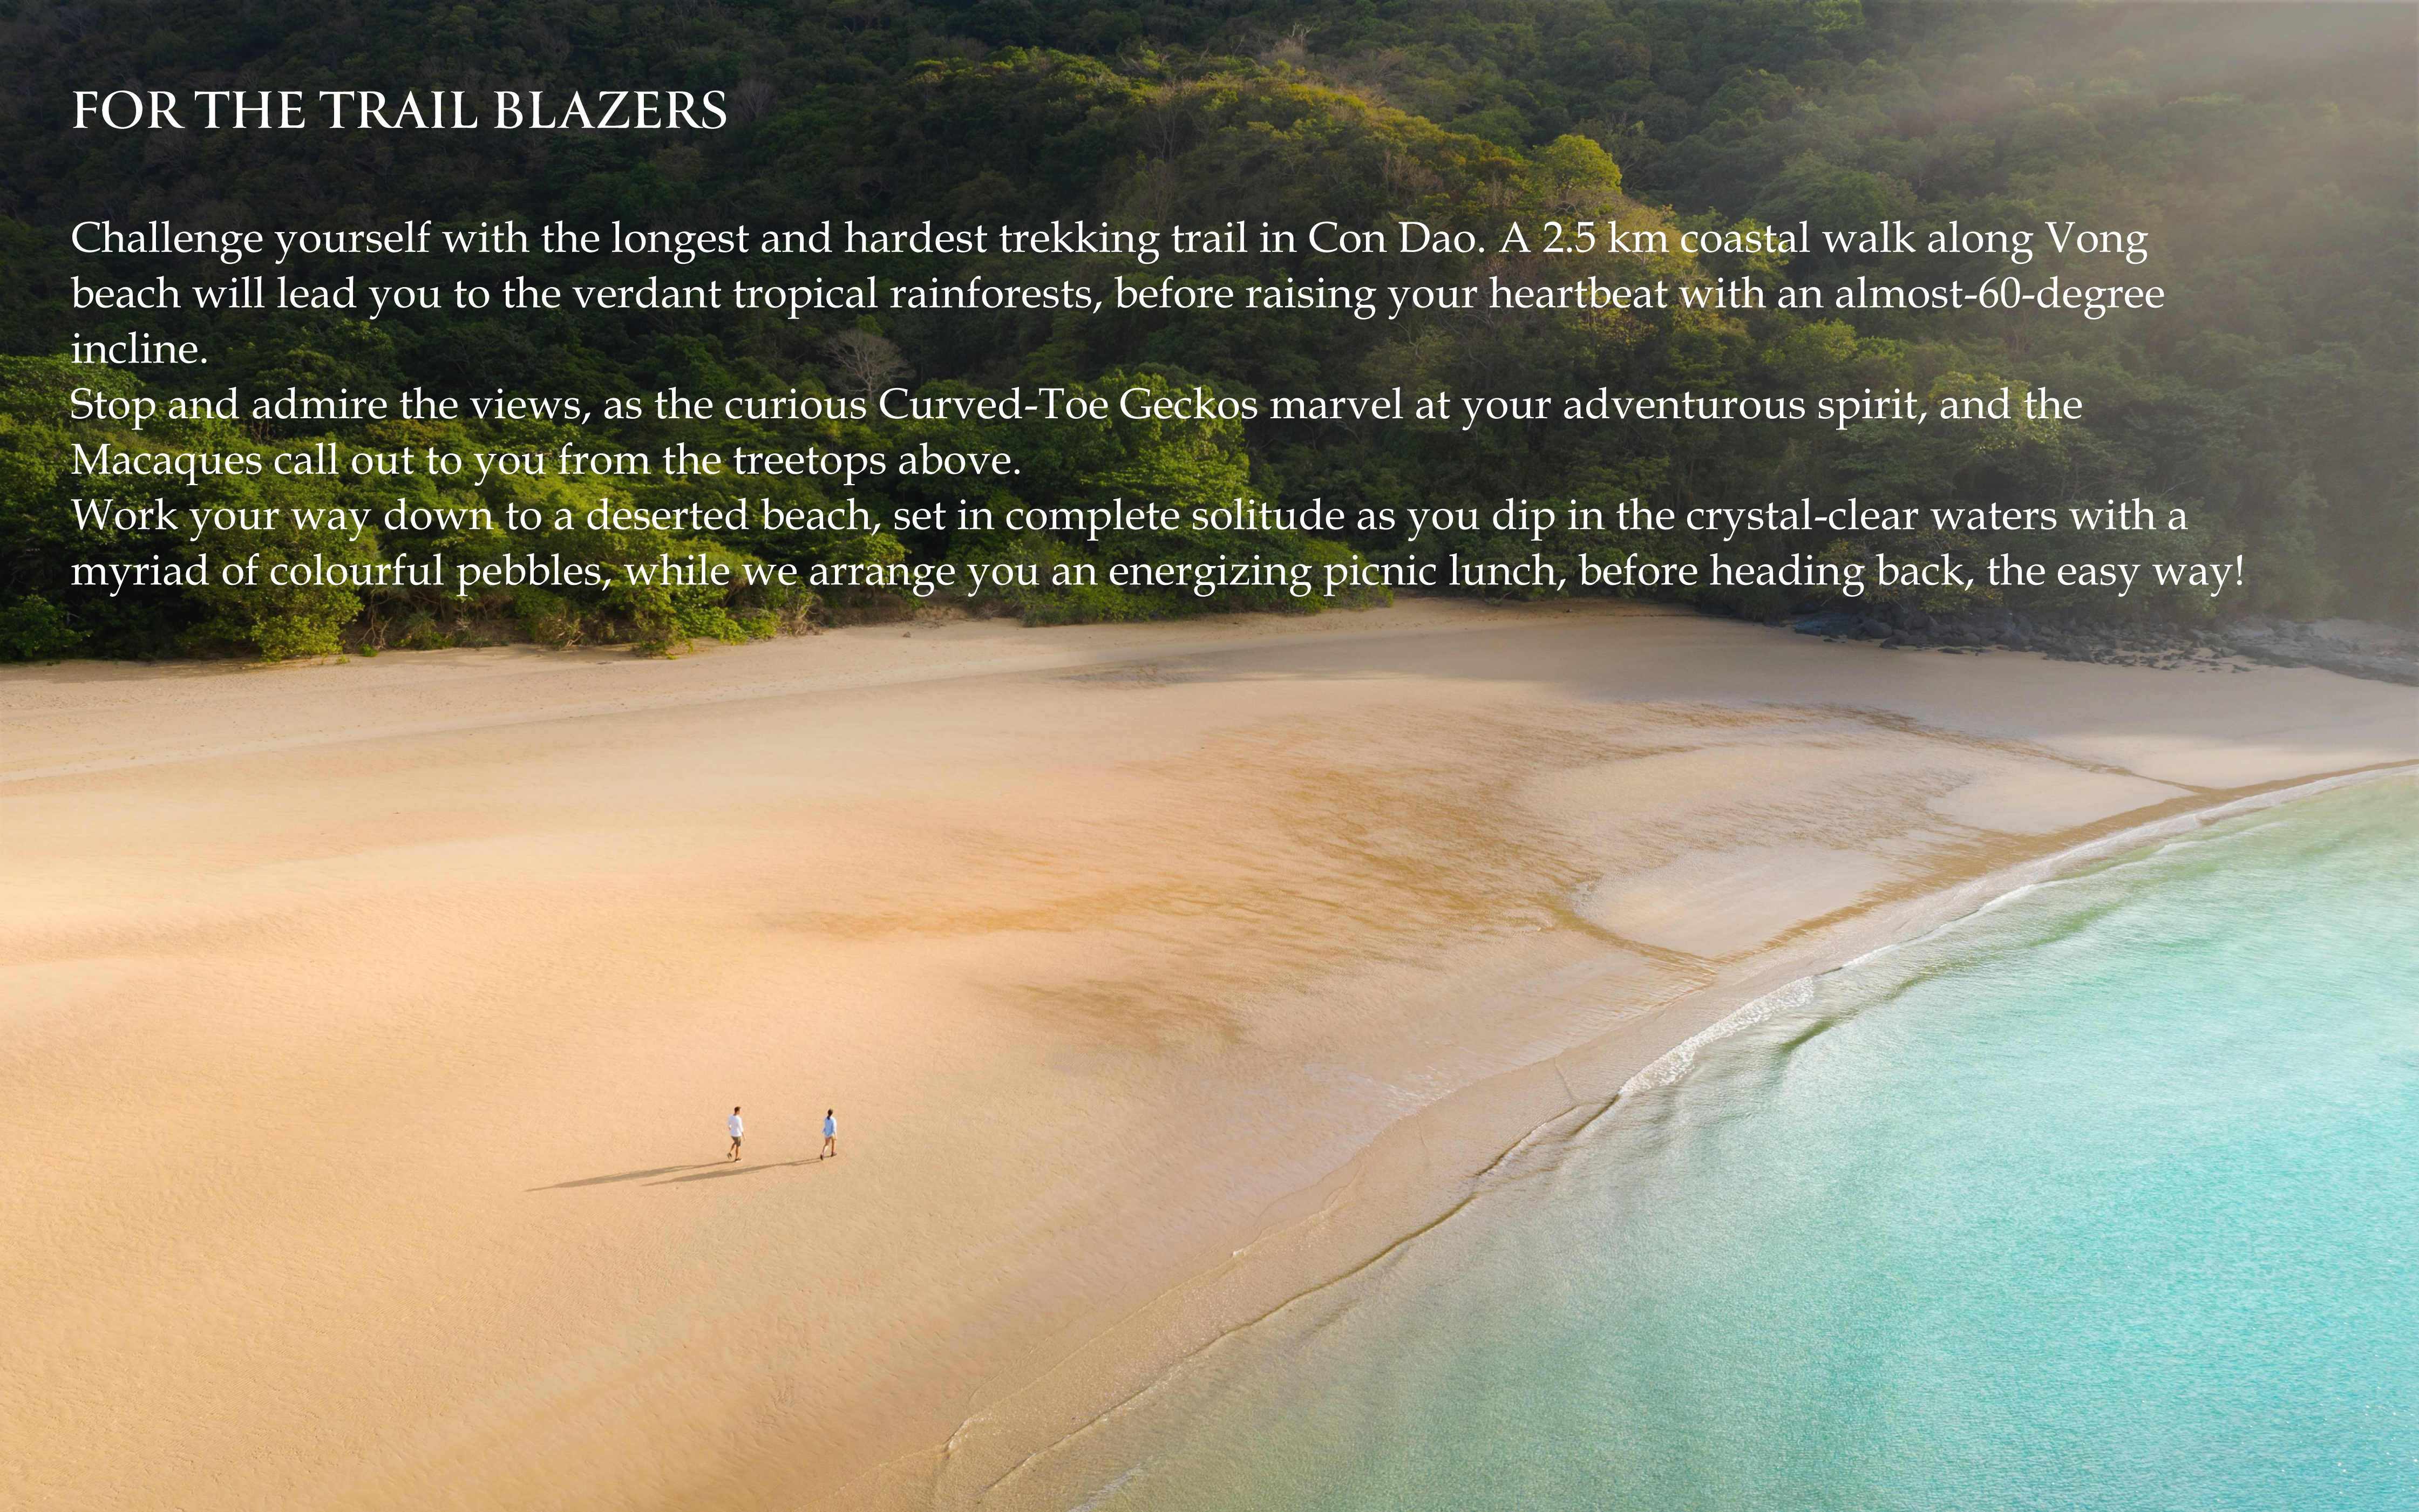

As you venture to deserted island inlets for snorkelling the bountiful underwater treasures; some of the most biodiverse coral reefs in Vietnam, will appear. Jump into the cool still waters, with perfect clarity this diving season, or for the more advanced, scuba into open waters to greet the (harmless!) sharks, turtles and other precious ocean habitants, protected by RAMSAR, while our hosts set up a picnic on a beach just for you.

FOR THE TRAIL BLAZERS

Challenge yourself with the longest and hardest trekking trail in Con Dao. A 2.5 km coastal walk along Vong beach will lead you to the verdant tropical rainforests, before raising your heartbeat with an almost-60-degree incline.

Stop and admire the views, as the curious Curved-Toe Geckos marvel at your adventurous spirit, and the Macaques call out to you from the treetops above.

Work your way down to a deserted beach, set in complete solitude as you dip in the crystal-clear waters with a myriad of colourful pebbles, while we arrange you an energizing picnic lunch, before heading back, the easy way!

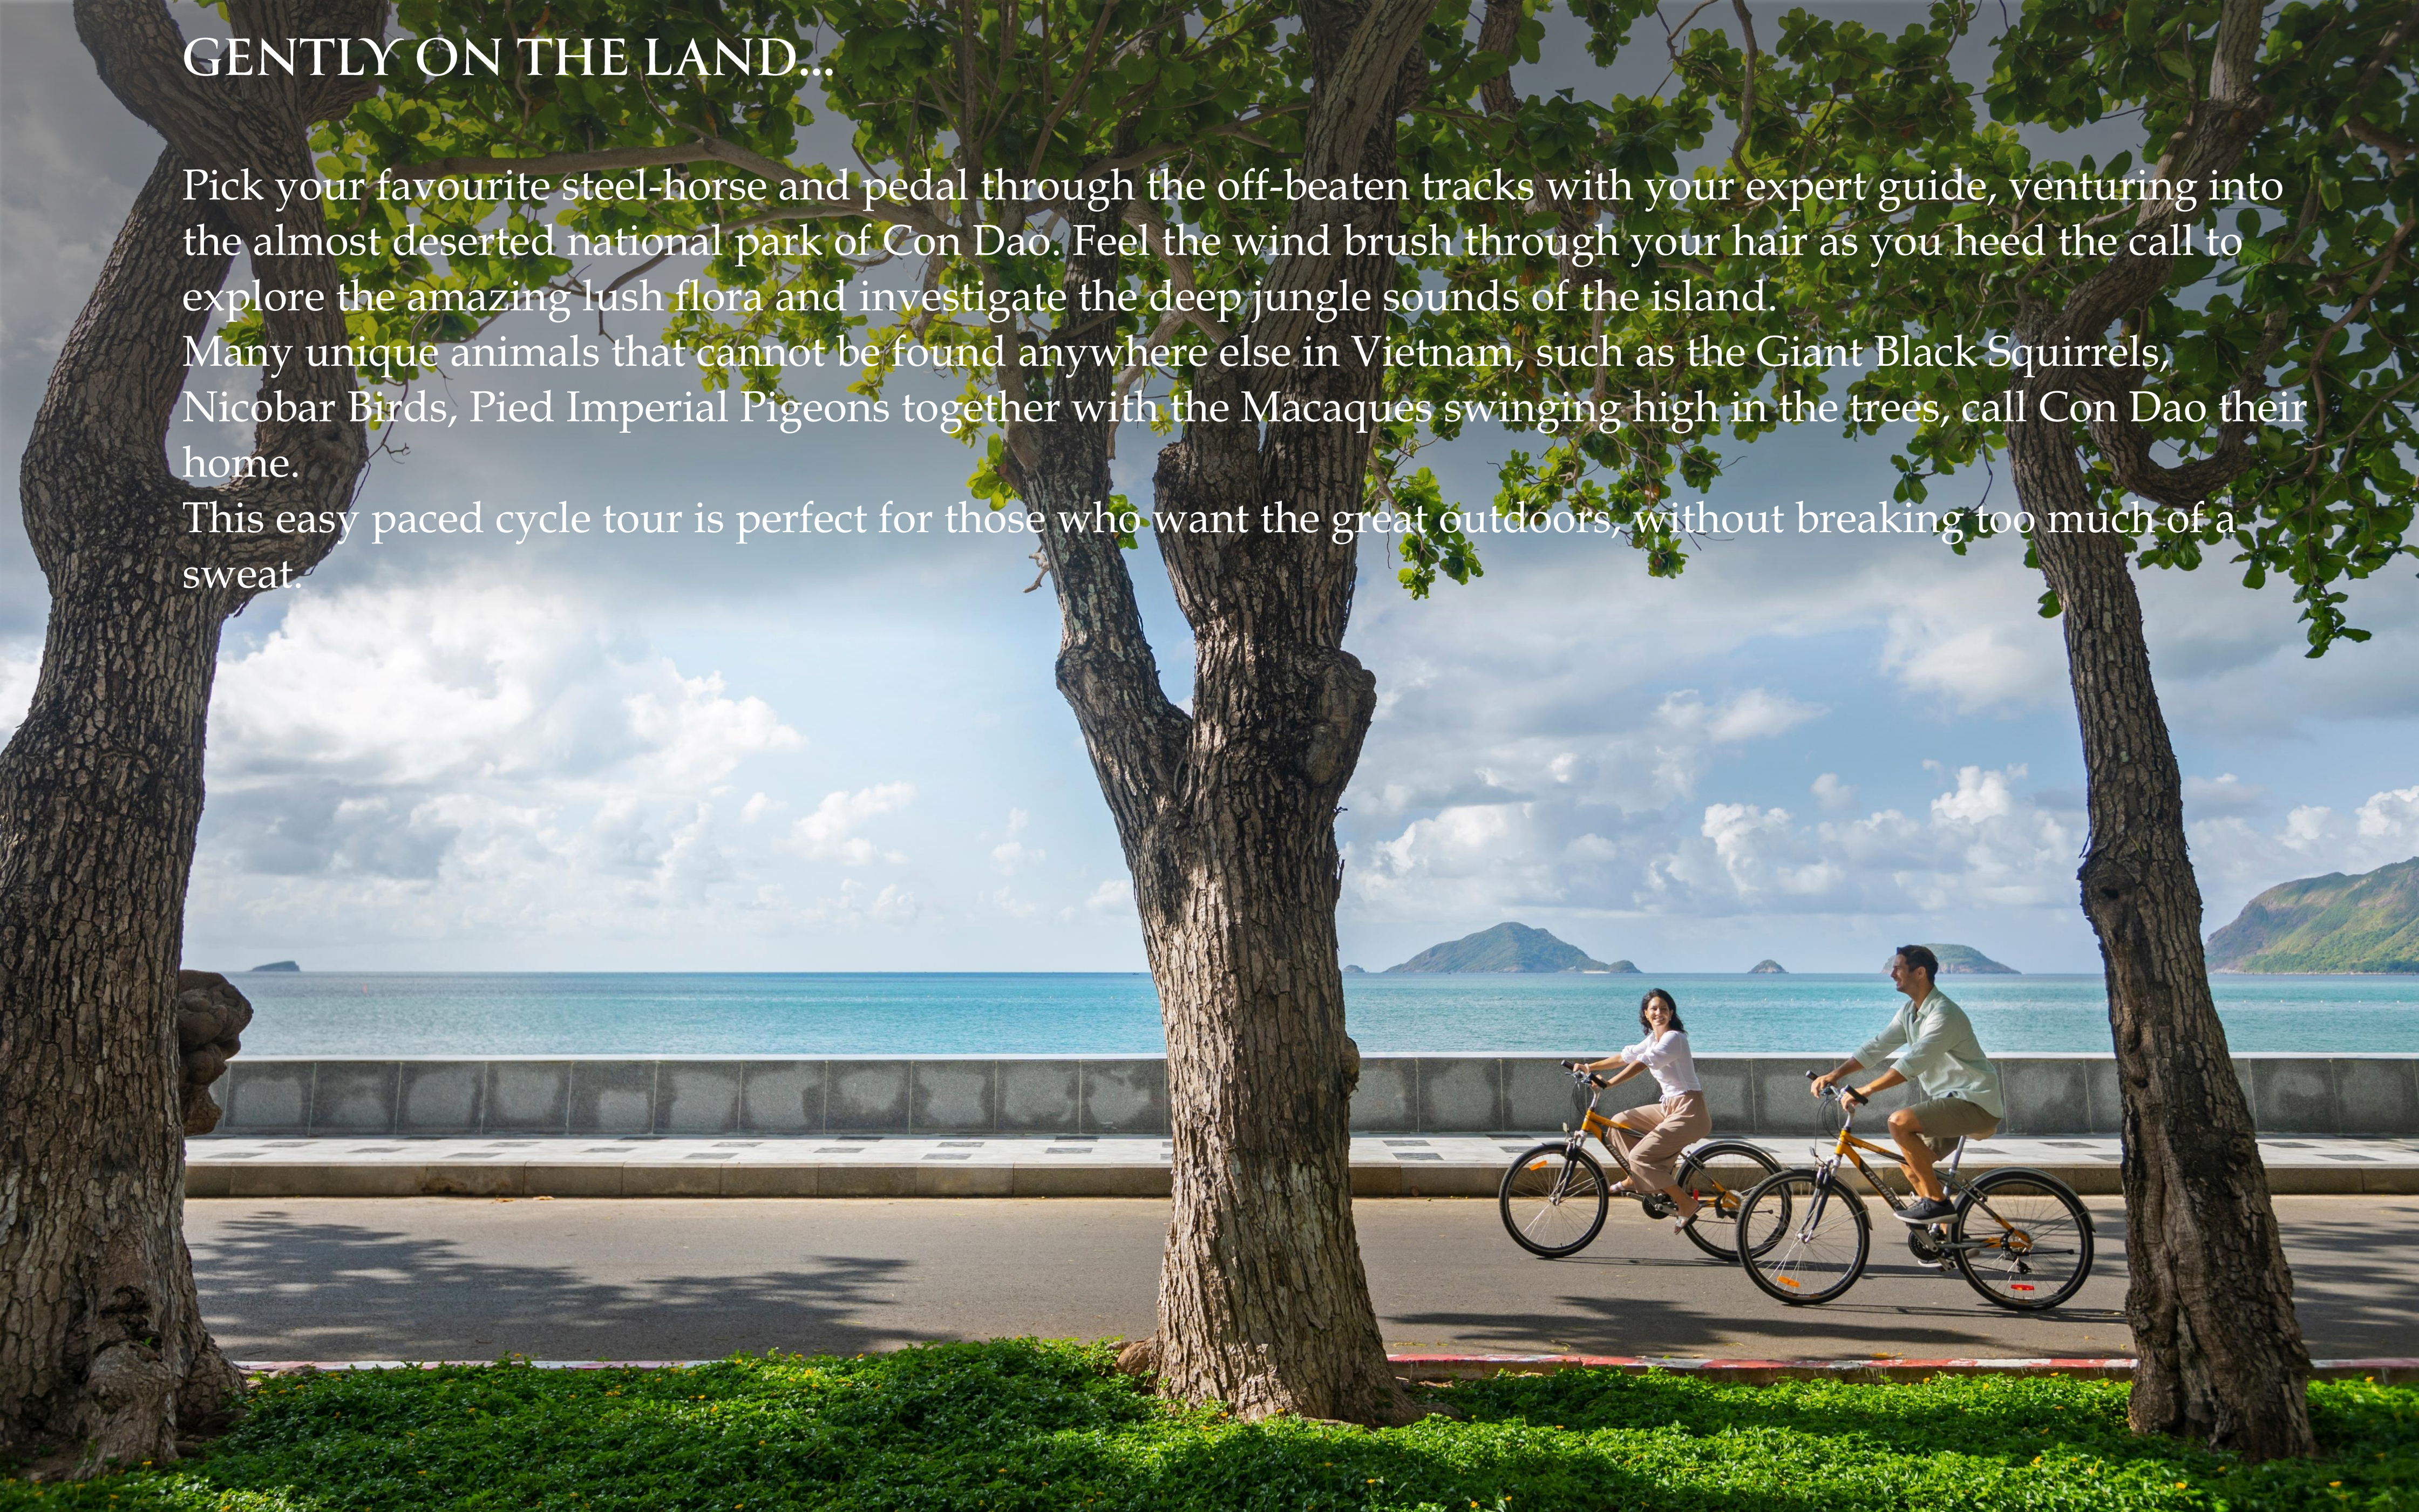

GENTLY ON THE LAND...

Pick your favourite steel-horse and pedal through the off-beaten tracks with your expert guide, venturing into the almost deserted national park of Con Dao. Feel the wind brush through your hair as you heed the call to explore the amazing lush flora and investigate the deep jungle sounds of the island.

Many unique animals that cannot be found anywhere else in Vietnam, such as the Giant Black Squirrels, Nicobar Birds, Pied Imperial Pigeons together with the Macaques swinging high in the trees, call Con Dao their home.

This easy paced cycle tour is perfect for those who want the great outdoors, without breaking too much of a sweat.

Using our EcoBioBalls® you are able to practice your swing and knock a few into the water from the Elephant Mountain Platform. EcoBioBalls® dissolve in 48 hours and the remains serve as fish food. To cause the least disturbance to natural feeding habits we do limit the number of balls played daily at a maximum of 60 balls per day.
